BY JOHN H. BYERS.  
It is expected that a large audience will be on hand tonight at the Rock River Assembly to greet the Buckner Jubilee Singers, who delighted large audiences Wednesday afternoon and this afternoon. Jubilee Singers are always a strong drawing card because the people usually receive what they go for—an evening of pleasant and delightful entertainment. This company of singers is an unusually strong organization—all experts and artists in their line.  
Rev. S. P. Long will again conduct the Sunset Services this evening at 7:00 on the river bank. His subject will be, "A Vision of Victory—We Must See the Only Savior."  
**School Holds Interest.**  
Day by day much interest is being manifested in the able discussion at the School for Religious Workers, held each forenoon in Chautauqua Hall and in Bible Hall. Rev. Krauss will address the school at 9 o'clock tomorrow morning. Rev. Lewis will discuss the "Sunday School Program" at 9:45 o'clock. Rev. Golladay will address the school at 10:30 o'clock, using for his subject, "The Elements of Prayer." Both Rev. Long and Rev. Lewis will discuss vital subjects at 11:15 o'clock. These meetings are open to everyone and it is hoped that all campers will take this opportunity to become better acquainted with one of the great lessons in religious work.  
I believe that the school this season is much better than it was in past years. If growing audiences stand for anything then this is true. For each day finds more new faces at these meetings. The talent is the best that can be procured for this character of work. Every speaker is a man of much experience.  
**School Closes Friday.**  
Friday is the last session of the school and the meetings on the day should be well attended, for if those who miss these meetings, really desire anything in this line it is well that they take this last opportunity of getting something worth while in religious work and thought.  
**Mission School Next.**  
The second school of the Assembly—the School of Missions—will begin next Monday forenoon and for this school the best possible talent procurable will address the school. Mrs. Hallie Hill, of New York City, will again be present. All know Miss Hill and her wonderful capacity for work and know that she is doing a wonderful work in missions. The sessions of this school will be held at 10 o'clock and 4 o'clock each day until Saturday, August 14.  
**Tomorrow Afternoon**  
Rev. S. P. Long will deliver the afternoon lecture of the Assembly Friday afternoon. His subject is, "Lessons from the War." This will be an interesting lecture and should be well attended for we will know there are many lessons brought about by the war, and lessons that all of us should give considerable attention.  
For thirty minutes Friday evening the Girls' Quartet from the Pythian Orphans' Home, Decatur, Ill., will entertain with singing. These young women will please and their entertainment will be appreciated. The girls will give a full concert Saturday evening, at which time a large audience should greet them.  
**Father John's Lecture.**  
Friday evening at 8 o'clock, Father John Palubicki, of Fullerton, Neb., will deliver his great lecture, "Danger Signals." Father John is a talented man, bright, energetic, whole souled, interesting, intensely patriotic and thoroughly American in spirit. In his lecture he is absolutely individual and

### THREATENED

Because of his recent activity in liquor raids, Sheriff Frank Schoonholz has been threatened. The official has been notified that a movement is on foot to get him, all because of his activity in raiding the liquor manufacturing establishments and stills of foreigners.  
The threat has thus far had no effect and the sheriff states that he expects to keep up this work until this vicinity is cleared up of these illicit, illegal practices, which in the greater number of cases is carried on among a foreign element.

### WORK ON FLOOR OF BRIDGE WAS STARTED TODAY

#### Care Must be Used in Driving Across it During Week

Workmen started this morning tearing up the floor on the south end of the Galena avenue bridge. The old plank is being removed for the first block of work which starts on the west side at the south end of the bridge. Considerable care is being exercised in the handling of traffic over the bridge and this will be continued until the repair work is completed.  
Superintendent White, who is in charge of the work, has been sworn in as a special officer and is assisted by Special Police George Stainbrook who has been on duty for several weeks. The west street car track is out of commission on account of the tearing up of the floor and all of the cars are using the east track. It will be necessary for drivers of all vehicles to exercise the utmost precaution in driving over the bridge, while the repair work is under way and the special officers have been instructed to arrest any who does not obey the rules which call for a speed regulation of six miles an hour over the bridge.

### Valuable Camera Lost by Engineer

One of the engineers from the office of the State Highways department reported to the police yesterday that a \$250 camera which he had lost from his car west of Dixon, had been picked up by tourists. The engineer was going west when he met a large car coming toward him and noticed the occupants of the car, five men and a woman, motioning and indicating that he had lost something.  
The camera was in the back of his car and when the owner turned, he discovered that it was gone. He stopped his car to turn around, the other machine passing him as he did so. The strangers stopped, picked the expensive camera up and proceeded toward Dixon at a high rate of speed. He followed to Dixon, notified the police and proceeded east to Rochelle but the big car was traveling Aurora, Geneva and DeKalb, were notified but no trace of the strangers could be found.

### Man Fatally Shot in Chicago's Taxi War

By Associated Press Leased Wire  
Chicago, Aug. 5.—Chicago's taxi-cab war broke out anew this morning when a chauffeur for one of the two rival lines was shot and probably fatally wounded while standing in the doorway of the company's garage. A touring car sped by the building and a gunman's bullet in it emptied his revolver into the garage. Anthony Suga, 21, the chauffeur, fell.  
Several nights ago chauffeurs of the two rival companies fought five battles. Armed squads would speed by the opposition garages and fire through doors and windows. The trouble is said to have started when fifty cabs of the two lines jockeyed for positions in a line before a loop theatre several days ago.

### Sinn Feiners' Peace Proposal to Britain

### GRANK OFFERS TRADE OF KIDNAPPED CHILD FOR HIS OWN FREEDOM

Think Woman Friend of  
Man Has Missing Coughlin Baby

By Associated Press Leased Wire  
Philadelphia, Pa., Aug. 5.—"The Grank," disclosed to be August Pascol, of New Jersey, refuses to reveal the whereabouts of little Blakeley Coughlin unless he is granted immunity in the kidnapping.  
He is bartering now to exchange the child, stolen from his parents' home in Norristown, on June 2 for his freedom. He is said to have gone so far as to admit the 15 months' old baby is hidden in Atlantic City.  
Pascol is of French and Italian extraction. He recently lived in this city and since last week in New Gretna, N. J.

**Think Woman Has Child**  
An air of anticipation surrounds the home of George H. Coughlin, the missing child's father, on the Plymouth boulevard, outside of Norristown. An acquaintance of Pascol's during the six weeks following the kidnapping that he occupied a room in a house here, says he knows Pascol had a woman friend. The state police and postal agents are now on her track and believe she has the child.

Pascol still is being grilled by the state police. He was taken to New Gretna Monday near Egg Harbor. Pascol only recently bought a farm at New Gretna and took three or four rifles and a quantity of liquor to the New Jersey farm when he moved there last Thursday, said W. H. Kelley, railroad agent at Tuckerton, near New Gretna.

Pascol, the police learned today, opened account with a Philadelphia bank on June 21, four days after the father of the kidnapped child had placed \$12,000 in a hiding place near his home. The mysterious letter writer signing himself "the Grank" had directed that this be done as a preliminary to the return of the child.

### OREGON MAN IS NEAR DEATH AS HERO'S REWARD

Woman's Honor;  
Skull Fractured

Charles Prentiss, an Oregon contractor who is known in Dixon, is near death in a Chicago hospital from injuries he received in defending Miss Cecelia Evans when she was attacked by two soldiers and a civilian in a Chicago rooming house early Wednesday morning. It is believed his skull is fractured.

Bernard Malley and George Dressell, privates from Ft. Sheridan, and Edward Kelly, whose address is not known, were arrested by the Chicago police, charged with the assault.  
Mr. Prentiss went to Chicago Tuesday evening on business and was directed to the rooming house. Early Wednesday morning he was awakened by a woman's screams and upon investigating he found three men attacking Miss Evans, who is employed at the Moody Bible Institute. He intervened and was terribly beaten.

## TWO DIVISIONS BRITISH TROOPS BEING MOBILIZED FOR POLISH AID, REPORT

Reds Advance at Rate  
of Six Miles a Day  
in Poland

#### BULLETIN.

London, Aug. 5.—(By Associated Press.)—Among British officials and diplomats of other nations here undisguised anxiety is felt over the Russo-Polish situation. One official said: "The situation is as grave as that in August 1914."

### Great Britain to Mobilize Big Forces

By Associated Press Leased Wire  
Paris, Aug. 5.—Great Britain has taken steps to mobilize rapidly two divisions for service in Poland, according to the Matin, which adds that plans for the transportation and re-equipping of these forces have been prepared. Negotiations between France and Great Britain for the purpose of devising means for aiding Poland are being pushed actively, other papers assert.

### Soviet Advance is Over Six Miles Daily

WARSAW, AUG. 5.—(By Associated Press.)—(130 a. m.)—Russian armies driving against the Polish lines defending Warsaw are maintaining an average progress of six miles per day in the direction of this city.  
They are being held in the south, however, and in some places are being pushed back from the districts east of Lemberg, which is one of the objectives of their present campaign.

**Poles Retake Small Town.**  
Today's official statement issued at general staff headquarters declares the Poles have retaken the town of Brody near the Galician frontier and have forced the Bolsheviks back into Russia in the region of Iadziwio northeast of Brody.

**Yank Aviator Busy.**  
American aviators fighting with the Komuchosko squadron are battling against General Buddenny's cavalry and infantry along the Sereth river, where the soviet forces have not made any headway. Parts of this squadron were engaged all day yesterday near Miklicze where they met Cossacks and Bolshevik infantry. The losses suffered by the enemy in this district were heavy, today's official statement saying 1,600 Bolsheviks were killed and large numbers were wounded.

**Strained Reserve Power.**  
Poland strained every ounce of her reserve power yesterday. Men in whose hands rests the destiny of Poland assembled at various conferences throughout the day, and taking a leading role in all decisions were the British, French and Italian missions. Munitions recently unloaded at Danzig by the British were arriving during the day, and tanks, rifles and artillery from France were rushed to the front. French officers are arriving daily to act as technical advisers at Polish general headquarters in the preparations for Warsaw's final stand against the invaders.

### No Confirmation of Threat by British

By Associated Press Leased Wire  
London, Aug. 5.—Statements printed by extremists newspaper here that Great Britain has threatened to declare war against Soviet Russia if the Bolshevik advance into Poland is not halted have not been confirmed in authoritative quarters.

### President Moscow Soviet Urges Peace

London, Aug. 5.—(By Associated Press.)—Leo Kamenoff, president of the Moscow Soviet, is reported to have sent a message to his government asking that Russia accept immediately the original British proposals for an armistice with Poland.  
M. Kamenoff, it is said sent his message after he and Mr. Krassin, the Russian minister of trade and commerce had had a very plain talk with Premier Lloyd George and Andrew Bonar Law, government leader in the House of Commons last night. Up to the middle of this afternoon no reply had been received.  
M. Kamenoff and M. Krassin are members of the Russian commission which came here to conduct negotiations looking to the restoration of trade between Great Britain and Russia.

### Reds Have Secret Treaty With Germany

By Associated Press Leased Wire  
London, Aug. 5.—Soviet Russia concluded a secret treaty with Germany concerning Poland a few weeks before

### IN BEAR'S GRASP

The steady march of the Russians upon Warsaw has created a situation which is causing grave anxiety in European capitals. Some expressions go even to the extent of comparing it with that of August 1914.

The allies are making representations to soviet Russia in aid of Poland, the British note dispatched yesterday being now described in some quarters as in the nature of an ultimatum although allegations that it contained a threat of war are not confirmed in authoritative quarters. The Russian emissaries now in London are reported to have recognized the gravity of the situation and to be urging their government to halt the Russian march in Poland.

BY ASSOCIATED PRESS.  
Efforts by the armies of the Polish republic to stem the tide of the Russian Bolshevik invasion which threatens Warsaw seem to have been futile.

Brest-Litovsk, the bastion in the permanent defenses east of the Polish capital, is in the hands of the Soviet armies; and Lomza, an important railway junction and strategic base to the northeast and Kovol, northeast of Brest-Litovsk have been given up by the Poles.

West of Brest-Litovsk the Poles still hold the great forts that have made that city one of the principal fortresses of eastern Europe, but Soviet troops have been flung across the Bug river further to the northwest, and it would appear this move will compel a retirement of the Poles from their defenses.

The Russians are advancing in echelon after the tactics adopted by General Mac Kenzie when he led the German armies in the great Dunajew campaign during the world war and the Poles are repeatedly being outflanked and forced to leave positions they have held for days against frontal attacks.

The Polish armistice commission leaves Warsaw today to meet representatives of the Moscow government for the purpose of arranging an armistice and beginning peace negotiations. There are many reports of alleged action to stop the advance of the Bolsheviks or to come to the aid of Poland, but as yet nothing authoritative has been reported relative to this phrase of the seemingly desperate situation confronted by the infant republic.

the great Polish offensive began says a correspondent of the London Times. He claims he has secured the information from "excellent authority."

The treaty, it is asserted, contained the following provisions:  
Russia without interference from Germany, would be allowed to appropriate all of Poland's arms, munitions, rolling stock and foodstuffs.

**To Control Exports.**  
After the conquest of Poland, permission would be given Russia to send a number of Bolshevik commissioners into that country to control the export of Polish supplies of all kinds.

Russia would then undertake to completely evacuate Poland in favor of Germany, which would hold the country as a guarantee against future credits to Russia in return for German goods and German labor.

"Russia," the correspondent adds, "intends to try to avoid the terms of this treaty by the creation by a Polish Bolshevik army."

### Bolshevik Forces Have Reached Ostrov

Warsaw, Aug. 5.—1:00 a. m.—(By Associated Press.)—Russian Bolshevik forces have reached Ostrov, 53 miles northwest of Warsaw and 25 miles southwest of Lomza.

### Fear for Safety of Former Premier of Hungary in Chicago

By Associated Press Leased Wire  
Chicago, Aug. 5.—A request that Charles Huszar, former premier of Hungary, now in New York be asked not to visit Chicago was filed today by representatives of various Hungarian clubs and societies.  
Spokesmen for the societies said they feared there would be an outbreak if Premier Huszar attempted to appear here as many Hungarians hold him responsible for programs and oppression of Jews in Hungary. They said it would be impossible to guarantee Huszar's life in Chicago.

## WAR THREATS BRING RAISE IN ALL GRAIN

Setbacks in Exchange, However, Kept Exports Down

Chicago, Aug. 5.—Threatenings of war between the allies and Russia with consequent prospective increased demand for American foodstuffs had a bullish effect today on grain, especially wheat. New setbacks in foreign exchange, however, tended to make export business difficult and it was said the British royal commission was still holding off as a buyer. Pit trading in future deliveries here was only of moderate volume, heavy margin being required owing to recent wild fluctuations.

Opening prices which varied from 3 1/2c decline to 2c advance, with December 2.28@2.32 and March 2.29 1/2 to 2.31, were followed by a general upturn that in some cases went to 6 1/2c above yesterday's finish.

Corn rose with wheat and as a result of dry weather and car shortage. After opening 1/4c off to 3/4c up, including September at 1.42 to 1.43 and December 1.23 1/2 to 1.24, the market scored a decided advance all around.

Oats were firm sympathizing with other grains. The market opened unchanged to 1/4c lower, September 70 1/2 to 71 cents, and then made substantial gains.

Trading in provisions was slow. Values responded only slightly to strength in cereals and in the hog market.

Hogs—receipts 23,000; 10 to 25c higher; poorer grades up most; top 16.35; bulk light and butchers 15.10@16.50; bulk packing sows 13.50@14.00; pigs strong to 15 cents higher. ## JUBILEE SINGERS IN BIG CONCERT TONIGHT

DIXON CHAUTAUQUA

(Continued from Page 1)

holds his audience spellbound for an hour as easily as for five minutes. He is broad minded and public spirited because as a leader of men he knows the men and women of today; knows their virtues and their shortcomings. He knows also their needs and wants and sends them away with a message that will be retained.

School Elects Officers.  
At 1:30 o'clock Wednesday afternoon the officials of the School of Religious Workers met in Chautauqua Hall and performed a re-organization. The old officers were re-elected and they are:

President—Rev. G. P. Kabele, pastor of the First Lutheran Church, of Mt. Morris, Ill.

Secretary and Treasurer—Rev. Carl Sunberg, of Carthage, Ill.

The program committee selected the program for next session is composed of the following:

President Kabele, Mt. Morris, Ill.; Dr. J. F. Seibert, of Chicago, President of the Illinois Synod; Dr. E. C. Harris, Pastor of St. John's Lutheran Church of Sterling, Ill.

A meeting will be held in the near future when further plans will be made.

## ASSEMBLY NOTES.

New campers are coming every day. Dr. White and family, of West Brooklyn, have rented a cottage for the Assembly. The Doctor comes here as often as his practice will permit. He was with his family Wednesday.

F. A. Snell and C. E. Derr, of Milledgeville, Ill., are here and are guests at the hotel.

Rev. W. L. Bright, of Nebraska City, Neb., is again with us and has brought with him his camera so those who wish to be "took" had better see Rev. Bright early and avoid the rush.

David A. Slick, one of Whiteside county's prominent citizens whose home is at Coleta, is here for a few days and he is living with Landlord Mackley.

Mr. and Mrs. H. H. Keigwin, of Hamilton township, are here for a few days.

Rev. M. E. Ballinger, of Auburn, Neb., is another minister who has reported for duty.

Miss Edith A. Kilmartin, Minnie L. B. Buck, Mabel M. Feik and Arlena A. Feik, all from Mendota, are here and have taken rooms at the hotel.

Well, the Assembly sports have begun. There was a real game of "horseshoe" Wednesday afternoon, and some fancy playing was done. Those who enrolled first and who interested and entertained a large number of "horseshoe" fans, were Harris (Rev.), Seibert (Rev.), Long (Rev.),

Uber (Rev.) and Attorney Waite and a good farmer, named Richards. They played as follows: Harris-Seibert; Long-Uber; Waite-Richards. Waite-Richards claim to be champions. But the men of the cloth played well and their throwing was loudly praised. Long throws a wicked shoe, and Seibert is a close second. But Harris is an expert and his shoes seldom miss the peg. When "Lawson" Waite throws there is a hurried get-a-way by the fans, for no one knows just where Waite's shoes will fall. However, Waite scored big. At some future time there will be another game at which time, Uber declares, he will do some fancy throwing. So "mote" it be.

Last Evening.  
A large audience greeted the Jubilee Singers at their thirty-minute program last evening. These vocalists are making a decided hit. One member of the company does some fine cartoon work between songs.

William D. Sulzer is the baritone singer taking the place of Henry Ethridge, who has recently left the organization.

Britigan Made Hit.  
William H. Britigan interested a large audience at the Rock River Assembly last evening and I dare say not many of his hearers were disappointed. They call Britigan the "Billy Sunday" in Real Estate. Perhaps he is in his business deals, but when it comes to speaking or talking the famous "Billy" would make him go some. On the platform he is very far from being anything like "Billy" Sunday, but in his sincerity; in his earnestness; in the force he puts behind his talk, he might be in a degree something similar to the noted evangelist.

Britigan did not have enough of Dixon's business men in his audience. His was purely a business man's talk. The members of the local Chamber of Commerce should have been present and they should have reserved the front seats. But few of the local Chamber of Commerce boosters ever in Dixon. Business men present did get a good deal from Britigan's address. He read from manuscript. He put vim and "pep" into his talk. He spoke from the shoulder and every word carried an idea with it. Britigan is a real estate man. He is an expert. He teaches young men to become

## Sister Mary's Kitchen

(Copyright, 1920, N. E. A.)

Long before the canning of fruits and vegetables was discovered as a means of their preservation our great-grandmothers dried their surplus "garden sauce" for winter use. The term dehydrated was not in common use in those days, things were just dried.

Now we can buy not quite "57 varieties" of dehydrated fruits and vegetables, all neatly boxed, but many kinds of these convenient foodstuffs.

The soup vegetables appeal especially to me, for they are so very usable. Many a bone and tail of a steak would be turned into a clear vegetable bouillon if one had the vegetables on hand.

Dehydrated loganberries are delicious and are used just as the fresh berries.

The use of dried food always means planning ahead for at least a day as the dehydrated product must be rehydrated.

### Menu for Tomorrow.

BREAKFAST—Dried loganberries, scrambled eggs with bean, toast, coffee.

LUNCHEON—Left over soup, stuffed tomato salad, hot rolls, tea.

DINNER—Fried chicken, gravy, mashed potatoes, new creamed onions, beet salad, watermelon, coffee and oatmeal macaroons.

### My Own Recipes.

The woman who lives in the country and has chickens and fresh vegetables in abundance never realizes the savings. To her it is an ordeal to have visitors from town for dinner because she has nothing different to offer them. But to the town visitors the friend chicken with milk gravy is most alluring and very different from the broiled chicken offered at hotels and road-houses.

### FRIED CHICKEN.

1 spring rooster.  
2 tablespoons butter.  
2 tablespoons lard.  
Flour.  
Salt and pepper.

Sift the salt and pepper with the flour. Roll the chicken, cut in pieces, in the flour. Melt butter and lard in frying pan and when very hot put in the chicken. Brown quickly on both sides. Cover tightly. Set on the back of the stove to cook slowly for an hour.

### MILK GRAVY.

2 tablespoons flour.  
3 cups milk.  
Salt and pepper.

Brown the flour in the fat left in the frying pan after the chicken is cooked. If any bits of crusty flour come off the chicken, leave them in the pan. Add milk slowly, stirring constantly. Season with salt and pepper and let boil while stirring two or three minutes.

The French have made eating a fine art. But there are no quick-lunch counters in France.

MARY.

When canning fruit or making jelly never leave the spoon in the preserving kettle while cooking the fruit. The heat is attracted to the spoon and boiling is retarded.

Also an acid fruit is given an unpleasant taste if a metal spoon is allowed to remain in it.

A wooden spoon is the best to use when canning. A porcelain utensil

is very apt to be nicked leaving the metal exposed.

is very apt to be nicked leaving the metal exposed.

### MENU FOR TOMORROW

Breakfast—Fresh apricots scrambled eggs, toast, coffee.

Luncheon—Apple fritters, brown sugar sirup, toasted crackers, Camembert cheese, tea.

Dinner—Jellied tomato bouillon, rice loaf, fruit salad, raspberry cream, sponge cake, coffee.

### My Own Recipes

The apples used in apple fritters should be the kind that cook very quickly. Chop the apples finely and if very tart, sugar is sometimes sprinkled over them as they are chopped. This time of year brown sugar sirup is preferable to real maple sirup.

### RICE LOAF.

2 cups cooked rice  
2 medium sized onions  
1 green pepper  
1 cup chopped nuts  
2 tablespoons butter  
2 tomatoes  
2 cups white sauce  
Parsley

Melt butter. Add butter. Add onions and pepper minced. Cook until tender. Add to rice with nuts. Wash tomatoes and cut in halves. Scoop out pulp and add to rice mixture. Rub tomato shells with salt. Fill tomatoes with rice. Put remaining rice in a buttered casserole. Make nests for tomatoes. Cover and set in a pan of hot water. Bake in a hot oven for 45 minutes. Remove from casserole to a large chop plate and pour over white sauce. Garnish with sprigs of parsley. Or the loaf may be served from the casserole and the white sauce served from a gravy dish.

### RASPBERRY CREAM

2 cups raspberry pulp and juice  
1 cup sugar  
2 cups milk  
1 cup whipping cream  
2 eggs (yolks)  
2 tablespoons gelatin  
1 1/4 cup cold water.

Beat yolks of eggs with 2 tablespoons of sugar. Scald milk and add slowly to first mixture. Add 1-8 teaspoon salt and cook in double boiler till it coats spoon. Add gelatin dissolved in cold water. Let cool and add sweetened raspberry juice and pulp. When it begins to stiffen fold in a mold to chill.

Of one thing the cook is sure—there's no accounting for tastes.

MARY.

## Search for "Leak" of Grand Jury Work

By Associated Press. Leased Wire

Chicago, Aug. 5.—The federal grand jury was under orders from Judge Samuel A. Linder to report today the result of its investigation to find the source of the "leak" which brought premature publicity to indictments said to have been voted by the jury against John Grunau and 40 other leaders in the recent "outlaw switchman's strike."

"The person who divulged this information should be treated as an anarchist," said the judge.

The indictments as drawn up charge the men with conspiracy to tie up the necessities of life through the strike last Spring.

### HUBBY CHARGED WITH THREATS.

## Harding Influence for Suffrage Again Exerted on Solons

By Associated Press. Leased Wire

Marion, O., Aug. 5.—Further influence for ratification of the woman suffrage amendment by the Tennessee legislature was exerted today by Senator Harding in telegrams to Republican suffrage leaders at Nashville.

He also sent a telegram of encouragement to Mrs. Carrie Chapman

Catt, president of the national American Suffrage Association.

Correspondence and more political conferences occupied Senator Harding most of today, although he set aside a time to visit as a guest of honor the reunion here of civil war veterans of the Fourth Ohio infantry.

## Fate of Suffrage Hinges on Primary In Tennessee Today

By Associated Press. Leased Wire

Memphis, Tenn., Aug. 5.—Interest in today's statewide primary in Tennessee centered in the election of thirteen members of the legislature to fill vacancies and in the contests for the Democratic and Republican gubernatorial nominations.

Fate of the federal woman suffrage amendment which the general assem-

bly is expected to take up next week at a special session was believed by suffrage leaders to hinge on today's results.

BIRD STUDY

Big folks and little folks can add to  
their pleasure by careful study of the  
birds. Everyone may become interest-  
ed in it.

Naturally bird study is a hobby best  
followed out of doors with our feather-  
ed friends in their proper environ-  
ment. Good eyesight and careful ob-  
servation is necessary to gain the  
best results. A pair of field or opera  
glasses will assist in "bringing the  
birds up to you." Time spent in the  
out doors will be a physical aid, too,  
so one has both a physical and mental  
string to his bow while following the  
birds in their flight—their names,  
their diet, their mating, their quar-  
rels, their colors, their nesting and  
their economic value.

For something easy, learn about  
the robin. Note his song. Listen as  
he sings in the early dawn. Note the  
difference from that of sunset. Notice  
his rain song. Notice that he does  
not hop, as one might suppose, but  
runs swiftly. Note his unerring dash  
after the worm. Note how he uses his  
breast as a trowel to smooth the in-  
terior of his mud-plastered home.  
Note his rough weaving.

Introductions to the birds generally  
is followed by lasting friendships.  
Get acquainted.

THE PROPER ANSWER

"Guess who this is!"  
The person who calls you on the  
telephone and tried to force you into a  
guessing contest is a suave, consider-  
ate fellow compared to the tactless  
one who confronts you in person with  
"I bet you don't remember me!"  
He knows you don't remember him.  
He lets you know he is prepared to be  
hurt because of it. He means that you  
shall be punished by embarrassment.

The manner in which this situation  
usually is met argues that most per-  
sons are kind. They are unwilling to  
hurt another by an unintended slight.  
Not even so inconsiderate. If he  
were considerate he would name him-  
self the moment he realized he was  
not remembered.

Instead he bends every effort to  
force his victim into an apologetic at-  
titude. The one assailed may pre-  
tend he does remember. Political  
campaigners become expert at that.  
Some become so expert that they sel-  
dom are caught in the bluff.

But most persons flounder, saying  
"I don't remember your name, but  
your face is familiar." Or, "I have  
such a poor memory for faces." Or,  
"I don't remember you just at this  
minute!"

Anything to save the feeling of the  
pest!

The wonder is the inconsiderate one  
is not more frequently met with the  
counter-attack he invites when he  
says, "I bet you don't remember me!"  
That is, "No, Why should I?"

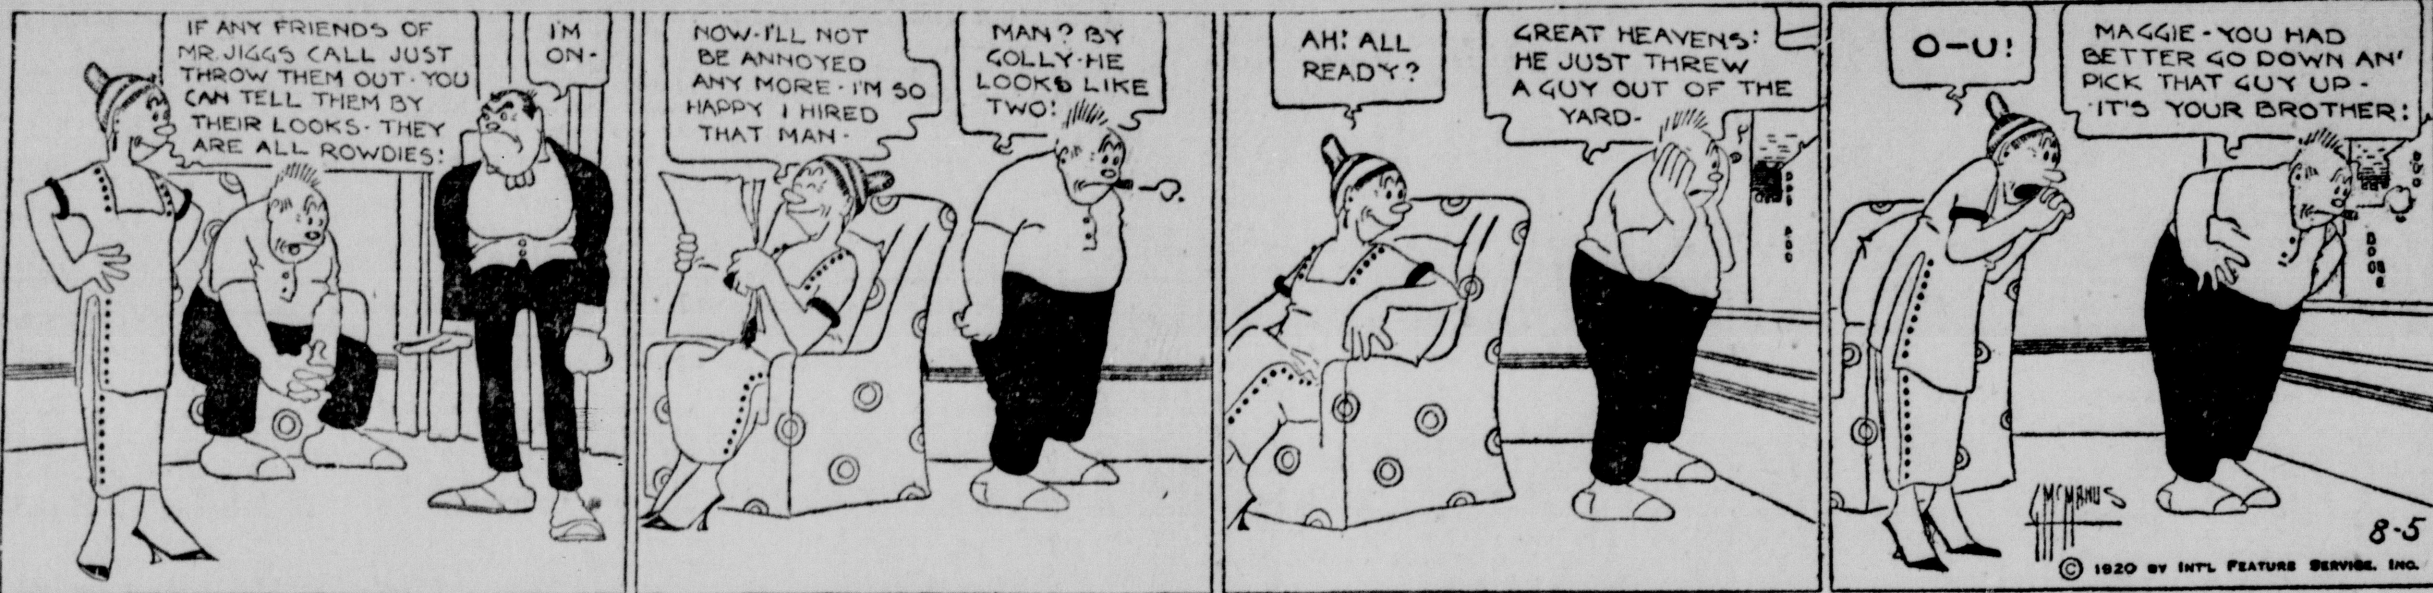

LADY CANADA

You have to hand it to that bunch  
of mother earth located north of the  
United States boundary line. It cer-  
tainly has the riches.

Everybody knows of its tens of  
millions of acres of wheat land—on  
which some of the best wheat in the  
world is produced. And they know  
of its enormous forests; but perhaps  
not so many know of the tremendous  
woods country far up in the frozen  
north where the timber stretches in  
an unbroken mass from Alaska to  
Hudson Bay. Then there's that herd  
of caribou that is said to number 25  
millions, offering a future solution of  
some meat situation. And the great  
possibilities of cheap electric power.  
And the fisheries and fur, and spruce  
and gold.

Mrs. Squirrels Complaint.  
After Tinsling, the fairy landlord,  
had got his clothes let out (because  
he was getting so fat) he left Maple-

was the use of his staying? Particu-

So that's where they all marched  
next, to Scramble Squirrel's the

was making red flannel undies for

PEOPLE'S COLUMN.

UNGRATEFUL TOURISTS.

Touring campers who have stopped  
over night or for a few days in the  
vicinity of Dixon, have created an  
unfavorable impression in many cases  
by their actions in leaving premises  
when they have been allowed to camp  
in a grove for a short period. The  
complaint does not apply to all tour-  
ists but to some who have visited this  
vicinity.

Cats have been left open and cat-  
lets permitted to wander into corn  
fields, damaging the crop and en-  
dangering the life of the animals.  
Fruit trees have been broken down  
by tourists who have raided orchards.  
Where a small fee is required to in-  
sure against possible loss where many  
tourists camp each season, in some  
cases the campers have left suddenly  
without meeting this obligation. It  
is not to find fault with all but these  
ungrateful parties do not make the  
welcome warmer for the well mean-  
ing one. The owner of a convenient  
grove or woods suitable for camping  
purposes cannot be blamed for not  
welcoming tourist campers at all  
times for these and many other rea-

LEANNESS.

While some persons suffer from ex-  
cess fat production, others are  
troubled because they are under  
weight in proportion to their height.  
The condition may depend upon one  
or several factors.

1. There may be a hereditary pre-  
disposition to sparseness of body.  
2. It may be due in part to exces-  
sive mental or physical exertion.  
3. It may be caused by some ob-  
scure disease, such as tuberculosis, or  
to perversion of the body. The con-  
dition is brought about by mental  
states such as worry and anxiety, as  
well as by lack of rest and sleep.  
It is true that persons of slender  
build are often stronger, more endur-  
ing and more resistant to disease than  
those who are inclined to stoutness,  
yet, though slenderness may mean  
physical strength and resistance, lean-  
ness may mean physical weakness  
and susceptibility to disease.

The cause which produces the lean-  
ness must be the guide in treatment.  
If the condition is due to worry, lack  
of sleep, etc., those causes should be  
removed. If to overwork, the work  
should be lessened in quantity or  
changed to some other kind. Meals  
must not be eaten when the body is  
fatigued. Foods should be daintily  
served and varied in character, pre-  
ceded and followed by a short rest if  
possible, and the meals should not  
be more than four or five hours apart.  
Some thin persons have an aversion to  
fat, this peculiarity should be over-  
come, if possible, and the diet made to  
include a liberal amount of fatty  
crisp bacon and olive oil.  
In fat building the carbohydrates,  
i. e., the starches and sugars are es-  
pecially valuable. The digestion should  
be very carefully attended to, as a spare  
habit of body may depend upon an  
undelaying indigestion. Foods found  
by experience to disagree should be  
avoided. The teeth should be kept in  
good order. Special care should be  
taken to secure an abundance of rest  
and sleep.

ANSWERED.  
Q. Please tell me the cause and how  
to cure blue circles under the eyes.  
A. It is quite out of the question  
to determine merely from your ques-  
tion what may be the cause of blue  
circles under your eyes. Often this  
is caused by loss of flesh, and is a  
sign of some serious underlying  
trouble. If this is the case with you,  
be sure to go to a good physician,  
have him give you a thorough exam-  
ination to find out what is wrong  
then follow his advice.

Q. Are there different stages of

gonorrhea?  
A. There is the acute stage of gon-  
orrhea, which, if untreated, will de-  
velop into a chronic condition.

Q. Will you tell me how to build a  
"Kentucky privy," and if there is a  
patent on it; also if we would have  
to pay a royalty if the same is in-  
stalled by us?" "C. V. C. Co."

A. If you will send me your name  
and address, I shall be glad to send  
you a copy of Public Health Bulletin  
types of sanitary privies, and a copy  
of the Kentucky State Board of  
Health's bulletin describing in detail  
the "Kentucky Sanitary Privy." So  
far as I know there is no patent  
which could be used as basis for the  
collection of royalty on any of the  
types of sanitary privies described  
in either of the bulletins noted. The  
publication of descriptions in the gov-  
ernment bulletin presumably protects  
certain parts of the apparatus, of  
course, would be patentable, but I  
am quite sure that no one could make  
any true claim for royalty against  
one who installed sanitary privies of  
the L. R. S. or Kentucky type.  
These privies were designed as life-  
saving devices, and were intended  
for installation and use by anyone.  
In recent years they have been in-  
stalled in many different sections of  
the United States, and I have heard  
of no reasonable objection from any  
claimant of a patent.

I do not like to see only the flaws  
in Ann's character, nevertheless they  
are too conspicuous to overlook.  
Her laziness is a naive expression  
of her real self. She doesn't even  
consider it a fault! She has never liv-  
ed in a well ordered house, I suppose.  
But she "has gone to college." She  
is fond of repeating that. She grad-  
uated from a business school and  
held some kind of an office position.  
It is plain that she has a mind which  
can be trained. And it seems a pity  
that her mother hasn't trained her  
to keep her stockings off from the  
floor, and her corset inside instead of  
outside her bureau.

To know all is to forgive all, they  
say. It was some time before we  
knew much about Ann. Jim told  
Bob, and Bob told me, and I told  
Chrys, a few things about her bring-  
ing up which explained Ann, but even  
so, I couldn't forgive her slovenly  
habits.

Her mother never had had time  
to train her. Her mother had been  
an actress and never had had a home  
to keep.

## WHO FOOTS BILLS FOR PONZI, WIZARD OF FRENZIED FINANCE

Postal Authorities Say Europe Pays—But They Doubt His Success

BY HARRY B. HUNT

Washington, Aug. 5.—Who pays Ponzi? Who foots the bill for the \$3,500,000 the young Boston financial wizard claims to have made in eight months by manipulations in foreign exchange and International Postal Reply Coupons? Do any of Ponzi's profits come out of Uncle Sam's pockets?

"Who always pays in any transaction between individuals or nations when the paper or currency of one is depreciated in value?" countered John Miller of the Postoffice Department. "Why the man or the nation whose paper is below par, or course." In other words, the war-burdened taxpayers of European nations.

"Uncle Sam hasn't lost a cent. Neither has he made anything. But

sustained, therefore, would be by the issuing country."

**POSTAL CHIEFS SKEPTICAL**

Postal authorities, although admitting that theoretically Ponzi might have been able to make 250 to 300 per cent by transactions in postal coupons, confess their skepticism as to any profits running into millions. The total coupons redeemed in the United States since the international postal union was formed, they say, amounts to only about 1,225,000, with a value of only \$81,125.

A suggestion has been sent to the headquarters of the union, at Geneva, Switzerland, that figures covering the total coupons issued to each country be compiled, in an effort to determine whether Ponzi's transactions could have been on the scale necessary to pile up eight millions in profit.

Figuring the possibility that he could make \$3 profit on the average for each \$2 invested, he would have to handle some 250,000,000 coupons. And postal authorities here declare they do not believe that many coupons have been issued since the postal union was formed. Anyhow, they say they're going to find out.

## STATE AID TO FARM TENANTS URGED BY LT. GOV. OGLESBY

Says the Commonwealth Should Help Them Become Farm Owners

Carmi, Ill., Aug. 5.—Lieutenant Governor John G. Oglesby, Republican candidate for governor of Illinois took time in his bombardment of Thompson's Tammenism today to touch upon agriculture. He told the farmers they are loyally doing their full share in matter effecting the high cost of living.

He said the state must encourage co-operative effort by farmers for marketing their produce. This will inevitably bring better prices to the farmer and lower prices to consumers. The candidate for governor declared the farmer believes a laborer should be worthy of his hire and he knows he cannot have more by producing less.

The state, he said, must help find means by which the frugal and industrious tenant may himself look forward to the opportunity of becoming an owner. The lieutenant governor said, in part:

Ten million acres of corn are planted in Illinois annually. Four and one-half million acres of wheat also are raised. Barley, rye, hay, clover and alfalfa claim large acreage and activities. There has been an appreciable acreage of potatoes, beans, sorghum and broom corn. Ten million acres of corn are planted in Illinois annually. Four and one-half million acres of wheat also are raised. Barley, rye, hay, clover and alfalfa claim large acreage and activities. There has been an appreciable acreage of potatoes, beans, sorghum and broom corn. Altogether the productions of the farmer of Illinois are not only a matter of great importance to the state, but to the entire nation.

# BELFAST IS NOW CITY OF FEAR, WRITER SAYS

N. E. A. Correspondent is Impressed by Journey to That City

BY MILTON BRONNER.  
European Manager N. E. A.  
(Special Cable)

Belfast, Ireland. — Belfast today is a City of Fear. You don't find it if you wander in busy retail shopping avenues or out in pleasant suburbs where dwell the rich mill owners.

But go, as I have gone into sordid streets where the workers live and you find fear latent in the heart of every woman, whether Ulster, Unionist or Irish Nationalist.

The woman never know, when their men leave, whether they will return home safe, be helped in wounded, or carried in dead.

**Fear More Rioting.**  
The recent riots cost a toll of 13 lives and more than 250 wounded. Whole streets of homes are damaged. Hundreds of windows were smashed. Two Catholic churches were attacked. Many places were looted.

At the moment of writing there is a lull in the open warfare, but it may break out again any time.

Meanwhile more than 4000 British troops are quartered in mills, schools, barracks and ships lying in the harbor.

On the streets are sandbag fortifications with gun holes through which the military can fire machine guns. These sand bags are protected by barbed wire entanglements. Armored cars with rifles protruding parade the streets.

**Both Sides Suffer.**  
Suspiciously eyed by troops, I wandered out into the Bombay street and other scenes of battle while the fighting was still on.

Not a whole window is left in the place. Many Catholic families have moved out. One young woman showed me a whole pocketful of lead bullets she picked up in her front room.

In the Ulster Protestant section I found houses likewise damaged by bricks and other missiles.

The streets of both sections were littered with smashed glass, bricks, bats, boulders and clubs. In mouths of alleys in both sections I saw mounds of boulders dug from the streets and piled up ready for use.

**Economic at Bottom.**  
The trouble was set off when Protestant workmen in the shipyards drove out Catholic workmen. Fighting between Orangemen and Catholics is an old story here, but my investigations have led me to believe that the present outbreak is something more than political-religious.

At the bottom it is economic, I am convinced.

The Ulster workers claim they drove out the Nationalists to make room for jobless Ulstermen who came back from war to find their places filled by South Irishmen.

I believe that the employing class, however, is largely responsible—that it worked on the religious feeling on both sides with a view to making it impossible for labor to present a solid front.

Ulster shipyards pay good wages but the greatest industry is the linen

## Wilson Won't Allow W. U. to Land Cable Until He Gives Word

Washington, Aug. 4.—President Wilson is understood to have issued orders to both the army and navy departments not to permit the Western Union Telegraph company to land on American soil a cable line from the Barbadoes until permission has been obtained from the state department. Construction of the cable from the Barbadoes end is said to have been started.

The proposed cable line, it was said, here, would extend to Miami, Fla., and would establish direct communication between the United States

and South America, eliminating the existing relay at the Barbadoes station in British territory. Complaints of unnecessary delay in messages passing through Barbadoes are reported to have been made by American firms dealing with South America.

Boston, Mass., Aug. 4.—The run of the Securities Exchange company headed by Charles Ponzi, who claims to have made millions in deals in international reply coupons, dwindled noticeably today.

## Italian Government Insures Live Stock

Washington, Aug. 4.—Life insurance for cows, sheep, pigs, horses and other live stock on the farm has been provided for in Italy by government decree. In the past, the Italian farmer carried all his livestock insurance with local mutual benefit insurance companies, which were unable financially to protect him against abnormal death rate due to plague or other calamity. Under the new decree branches of the National Institute for Local Insurance of Livestock will be opened in all important centers, and its large funds will be available for insurance against normal as well as abnormal losses.

## The Witchery of Daintiness

WOMEN who are particular know how to cultivate and retain that irresistible refinement of person that is their chief charm.

They know that nothing so detracts from their appearance as superfluous hair. At social functions where the mode demands a gown of filmy sheerness the hairless underarm is a necessity.

There's always room at the top

for Highest Possible Quality at Lowest Possible Price

THERE was plenty of room at the top for a cigarette of tip-top quality at a rock-bottom price. That's where Spur comes in. And that's where Spur stays. For men who judge a cigarette by its looks, by its blend, by its taste—well, Spur was made for them. Spur's new blend of choicest Oriental and American tobaccos brings out to the full that good tobacco taste. Spur's satiny imported paper, crimped (not pasted) makes an easier-drawing, slower-burning cigarette. Spur's smart brown and silver packet, three-fold, preserves the Spur flavor and fragrance. Money can't buy anything better!

Legitimately Yours Tobacco Co.

If your dealer cannot supply you, send us \$2.00, and we shall be pleased to send you, by prepaid parcel post, a carton of 200 Spur Cigarettes (10 packages). Address:

## BURNED HOLES IN HEAD PART OF RELIGION

Changchow, Kiangsu Province.—Dr. John Dewey, American exchange professor at the University of Peking, visited Changchow recently in the course of a mission lecture tour of China, at a time when the city was observing a holiday and 1,000 Chinese Buddhists, becoming priests, suffered holes to be burned into their heads as a token of their religious vows.

The holiday was a spontaneous affair arranged by a group of devotees of the Changchow Buddhist monastery, then graduating a class of novices into the priesthood. Chinese had come from all parts of the country in response to a call the monastery sent out. The Buddhists at the same time honored the victims of the Taping rebellion who were killed 60 years ago.

The Buddhist ceremony of ordination in China follows ancient lines that are barbaric—in the eyes of the Occidental and this explains why the shaven polls of the priests the traveler meets are marked with deep pitted scars. The novitiate is a matter of 40 days usually and at its close, as a climax of the temple ceremony, upon the shaved heads of lines of kneeling novices are placed cones of highly inflammable incense. These are set on fire as a chorus prayer issued from the throats of the assemblage. Upon the heads of the most devout—those taking the "full vow"—is placed a circle of 12 smoldering incense heaps.

The 1,000 who became priests at the recent ceremony here, 822 took the full vow while the others accepting lesser orders, were sent forth with fewer scars, some with but one and the rest from two to nine.

## Urges Communists Get Into Parliament

London, Aug. 4.—Communist participation in parliaments is favored in resolutions adopted by an overwhelming majority at a meeting of the third international at Moscow, according to a dispatch from that city to the Herald, organ of labor. The proposal was submitted by M. Bukharin, editor of the Bolshevik organ Pravda of Moscow who urged that parliamentary action be adopted as part of the Communist program in all countries where the Communist party has been organized.
